10% English

### Cycle Two

50% French  
50% English

### Cycle Three

50% French  
50% English

# Westpark Elementary

*Nurturing great beginnings*

## Community and Safety Leadership

At the beginning of the school year, we run a campaign where the students elect a president, vice-president, secretary and representatives from each Grade 4, 5 and 6 class. Student Council meets regularly to enhance school life.

## Safety

- Children safety is a priority
- Lock door system with cameras and intercom
- Once children have entered school yard, Westpark gates are locked.
- Bullying prevention program in place
- All staff members participate in training sessions for anti-bullying prevention

## Our Vision

Our vision states that our school be a welcoming, peaceful and stimulating environment where we promote acceptance of diversity in all individuals and nurture a love of learning within each child.

The staff at Westpark remain committed to maximizing individual student learning in an environment where all decisions are made in the best interest of the child. Under the guidance of dedicated educators who embrace professional development and life-long learning, and the support of many devoted parents who have formed a partnership with the school, the students are provided a well-rounded, challenging education in a safe and nurturing environment.

## Home & School

The Home & School is an organization of parent volunteers who work in cooperation with the principal and school staff to raise funds and organize activities that help to enrich the educational, social, cultural and physical experience children receive at Westpark Elementary School. The Home & School is open to all parents who wish to make a contribution to the school.
